PROFESSIONAL
EXPERIENCE

Python Developer | 2022 – 2025

Mastering Python Programming Languae

- Led the development of advanced computational tools and data-driven solutions
- Designed and executed algorithmic problem-solving approaches using Python, with a strong focus on performance and scalability.
- Proficient in Object-Oriented Programming (OOP), data structures, and algorithm design using Python.
- Mastering Python programming with a focus on clean code, modular design, and automation.

Java Developer | 2022 – 2023

Mastering Java

- Designed and implemented algorithmic solutions using Java, focusing on clean architecture and optimized execution.
- Strong proficiency in Object-Oriented Programming (OOP), data structures, and algorithm design in Java.
- Mastering Java with emphasis on modular code, multithreading, collections framework, and clean coding principles.
- Developed a University Student Registration System using Java, featuring data input validation, course enrollment, and student records management.

Database Experience | 2023 – 2025

Mastering Database Management Sytesms

- Proficient in writing and optimizing SQL queries for data retrieval, manipulation, and reporting.
- Experienced in working with MySQL and SQLite for designing and managing relational databases.
- Built and managed database schemas, relationships, and constraints to support reliable data integrity.
- Comfortable integrating SQL databases with back-end applications and performing data migrations or exports.

EDUCATION

University College of Applied Sciences | 2022-2027

Cyber Security Enginerring

- GPA: 86%
- Encrypt And Decrypt The Data
- Mastering Linux OS

SKILLS

- Web Scrappgin Using Python
- HTML, CSS, Js, Bootstrap
- SQLITE, MYSQL , SQL
- Java Programming Language
- Data Structure And Algorithm
- Linux OS
- Git and Github
